CIVILIAN CONSERVATION CORPS

At the end of February there were 1,021 Montana Juniors enrolled in the Civilian Conservation Corps. This was a decrease of 50 (4.6%) from the number of enrollees at the close of the preceding month.

68 discharges were awarded during February, 49 of which (72.1%) were honorable and 19 of which (27.9%) were non-honorable. 55.9% of all discharges were awarded to enable the enrollees to accept employment in private industry.

During February, an Intermediate Enrollment was held. The requisition for Montana was 15 Juniors, and this number of young men was enrolled. All of the enrollees were white, and 13 came from rural areas while 2 were selected from urban centers. 9 of the boys had completed the eighth grade of school.

At the end of the month there were 71 Junior applicants awaiting future selection and enrollment in the Civilian Conservation Corps.

DIVISION OF SURPLUS COMMODITY DISTRIBUTION

In February, a total of 15,723 cases were certified as eligible to receive surplus commodities and 14,904 of these cases (94.8%) did actually receive commodities during the month. Because these figures include Indian cases for the first time, comparison with the caseloads of previous months is not possible. Although Indians may, and do, receive Public Assistance grants and earnings on work projects, they are not classified according to the type of case in Table XVII.

1,517,900 pounds of commodities were received from the Surplus Marketing Administration in February. 1,812,792 pounds of foodstuffs were issued to recipients of commodities, an average of 121.6 pounds per case for the month.

The estimated value of foodstuffs issued in February was $102,516.00 and household furnishings valued at $8,008.02 were distributed. The facilities of the Division of Surplus Commodity Distribution were used to distribute clothing valued at $38,752.63. This clothing had been manufactured in WPA Sewing Rooms, projects which are sponsored by the Department of Public Welfare.
